

TURMAR MARINE SURVEY CONSULTANCY & SHIPPING INC.

ACTIVITIES OF TURMAR

Turmar was established in 1984 with the specific aim of serving Turkish ship-owners in the survey and consultancy areas. In 1987 our company started business with USSR customers based in the Black Sea region.

Today, our business has developed to the stage where we now offer a wide range of services to the shipping companies which have vessels not only Black Sea region but also worldwide. Our main scope of business is parts recondition, technical equipment supply, spare parts supply, material supply, consultancy service and ship repair.

- Exclusive agent of **DIESEL MARINE INTERNATIONAL**, the leading maritime reconditioning provider for the Black Sea region and Turkey by means of the following factories:

Germany / USA / Dubai / Singapore / Nantong / Dalian / Guangzhou

Used parts can be collected in Istanbul or at any other port around the world.

DMI can recondition your components in minimal time, and delivery can be made to any port your vessel will call.

Cylinder Covers / Liners / Pistons / Conrods / Skirts / Rods / Spindles / Seats / Turbocharger Casings / Bearings / LO Pumps / Crank Shafts / Fuel Equipment / Brand New Piston Rings / Stuffing Boxes and Fuel Equipment Nozzles / Fuel Valves / Fuel Pump Elements etc.

DMI has also created an immediate exchange service, which provides substantial stocks of instantly available components from DMI Exchange Pools located all over the world. Specific stocks can be maintained for individual customers by special arrangements. This allows marine customers to save time and money by receiving reconditioned components in exchange for the used component.

- Exclusive agent of **AMI Exchangers** - *UK Factory* for Black Sea region and Turkey

Diesel Engine Air Coolers | Shell & Tube | Onboard Repairs | HVAC | Plate Exchangers | Gasket Sets
