

SHIPSERV *Onboard 2019*

To our Users,

For 62 years we have been bringing quality information about marine-related products and services to shipboard personnel. We have also been bringing quality information to online users through ShipServ Pages since 2006. Four million visitors per year now use ShipServ Pages. How do we deliver the fast, thorough results of an online search engine to offline users at sea?

The answer is the ShipServ Onboard Digital Edition DVD and USB.

- A DVD or USB is small, light, and relatively inexpensive for you to send to your vessels
- Full search capability by category, brand, text, company name, port/location
- Browse over 100 electronic supplier catalogs with supporting specification sheets
- All users may access the IMPA Marine Stores Guide in catalog form.
- Use as a stand-alone reference tool or build and send electronic requisitions right from the search engine!
