ABOUT US

AMEC RIJEKATEKSTIL is a leading Croatian ship supplier. We have operated at the territory of Republic of Croatia since 1990 and since the accession to EU, we extended our business operations to Slovenian and Italian ports.

AMEC RIJEKATEKSTIL is a one stop shop for all types of commodities and services required by today's ships. We provide all commodities, from particular food products to a brand new ship engine.

We provide services to ships moored at ports and shipyards, but also at anchorage.

There are 40 employees in our team, engaged in the processes of domestic and foreign purchasing, visits to ships and delivery of goods, all accompanied by appropriate documentation.

We have our own customs and tax warehouses so we can also supply the so-called duty- free goods.
