PROTECTION

# RED WING GLOBAL SOLUTIONS

Since 1905, Red Wing has been helping generations of workers perform their jobs safely and comfortably with purpose-built products and services available worldwide.

Whatever your needs, we can build the complete personal protective equipment (PPE) solution to meet them—everything from safety footwear and flame-resistant workwear to gloves, safety glasses and more.

## TOTAL BODY PROTECTION

All Red Wing products use the highest-quality leathers, fabrics and components sourced from trusted brands, that are subjected to rigorous internal and independent, third-party testing to ensure we meet or exceed compliance with global safety standards.

We also own the entire process, enabling tight quality control, rapid order fulfillment and industry-leading warranty coverage.

## GLOBAL REACH

Over the last 110+ years, Red Wing has built an extensive network of trusted partners and full-service distribution centers in more than 110 countries.

This global reach makes our selection and service available everywhere. Strategically located sales offices, manufacturing facilities and distribution hubs in the USA, UAE, Scotland, Norway and the Netherlands help to optimize fulfillment times, while helping us stay close to our customers.

## FULL-SERVICE PARTNERSHIPS

Your personalized Red Wing service experience begins with a local expert guiding you through the standard and custom PPE options.

After your order has been delivered, you can have peace of mind that assistance is always there when you need it. That includes a support team in your region, plus global phone support. Most product concerns can be resolved locally to minimize employee downtime.

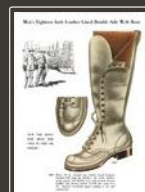

# 1905

**RED WING GLOBAL PPE HISTORY** Founded in 1905 along the Mississippi River in Red Wing, Minnesota, USA, Red Wing has a proven history of supporting the oil and gas industry worldwide.

# 1920

**"OIL KING" STYLE 804**  
First work boot purpose-built for the oil field introduced.

# 1923

**DALLAS, TEXAS USA OFFICE** First branch office opened to support oil and gas customers in the region.

# 1928

**"TEXAN" STYLE 891**  
First purpose-built oil and gas work boot available in multiple widths.

## THE COMPLETE SERVICE SOLUTION

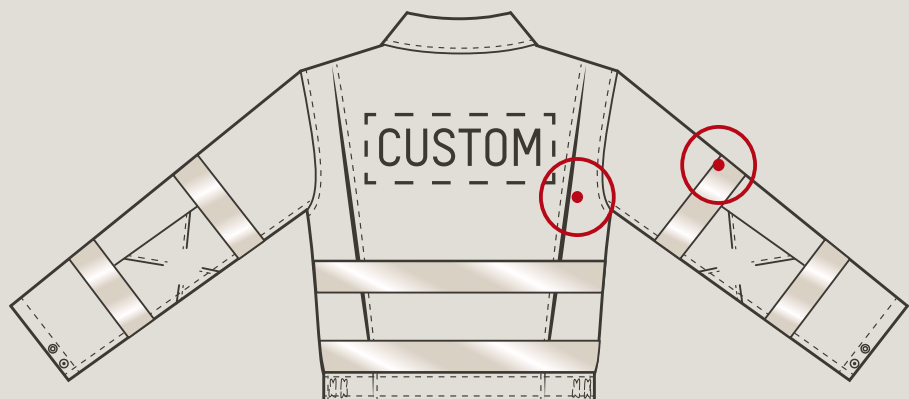

What starts with a local team to assist you with PPE selection becomes an expert, in-region support staff ready to help after your Red Wing solutions have arrived. This proximity gets you the right answers fast to keep your workers protected and on the jobsite.

In the unlikely event you have a product or service issue, most concerns can be handled locally through our extensive distributor network, helping to ensure your employees are back to work fast.

## TAILORED TO YOUR NEEDS, MADE AND SUPPORTED LOCALLY.

Many of our customers have PPE needs that fall outside our standard offering. That is why Red Wing provides a full portfolio of customization options to meet your specific needs.

From simple name embroidery through complex flame-resistant (FR) striping patterns and badging requirements, our trained specialists will complete the job to the highest standards from a local customization facility, reducing your lead times and enhancing the service experience.

Customization includes embroidered patches and reflective striping. We can also manufacture a completely custom, Special Make Up (SMU) pattern.

### 1939

**OIL-RESISTANT SOLE**  
Oil-resistant sole added to oil and gas work boots.

### 1960

**"DRILLER'S BOOT" STYLE 966**  
Oil and gas work boots with a steel toe.

### 1961

**GOING GLOBAL**  
First footwear shipment to global distributor in Libya.

### 1965

**INTERNATIONAL BUSINESS**  
A new division is formed to supply footwear, garments and other protective wear worldwide.

Red Wing opens offices in Dubai, UAE, and Stavanger, Norway, and acquires K&L Ross in Aberdeen, Scotland.

### TODAY

Strategically located centers in Norway, Scotland, UAE and USA

- Distribution in 110+ countries
- 25+ dedicated Global Solutions experts
- 100+ employees supporting Red Wing PPE customers

A full-page photograph of a male worker in profile, facing right. He is wearing a white hard hat, safety glasses, and a high-visibility work suit. The suit consists of a bright yellow-green long-sleeved shirt with reflective silver stripes across the chest and shoulders, and red trousers with yellow-green sections on the lower legs and reflective silver stripes. He is standing on a yellow industrial machine, possibly a crane or drilling rig, with various metal beams and components visible in the background. The text "PREMIUM QUALITY, COMFORT AND STYLE" is overlaid in white, bold, sans-serif capital letters across the center of the image.

**PREMIUM QUALITY,  
COMFORT AND STYLE**

All Red Wing PPE is manufactured using only the highest-quality leathers, fabrics and components sourced from trusted brands that hold safety and durability in the same high regard. Every product is subjected to rigorous internal and independent, third-party testing to meet or exceed a variety of global standards.

Comfort and style also define Red Wing workwear, footwear and accessories. These qualities help to enhance employee efficiency and morale, translating to higher productivity and less turnover.

### **UP FOR THE HARDEST WORK.**

From oil rigs to shipping docks, factory floors to refineries, the world's laborers trust Red Wing to deliver the PPE features, fit and durability to keep them safe and comfortable in the most extreme conditions on Earth. Compliance with global safety standards also allows you to single-source product for employees in multiple locations around the world.

### **FULL LINE OF PURPOSE-BUILT ACCESSORIES.**

Your complete Red Wing head-to-toe protection pairs the industry's top safety footwear and workwear with high-performance work gloves, safety glasses, hard hats and more. With access to our vast product selection as well as accessories from manufacturing partners, you benefit from true one-stop convenience for your business.

# PROVEN PERFORMANCE BEYOND GLOBAL STANDARDS

Red Wing is an ISO 9001 certified business with an entire head-to-toe offering that is rated to meet the full array of global safety standards. That includes EN ISO and NFPA for flame-resistant workwear and EN ISO and ASTM for safety footwear. Many of our products also comply with CSA and the Australia/New Zealand (AZ/NZS) and Singapore (SS) standards for footwear.

But global compliance is only the beginning. To ensure maximum performance, we also test every product twice — once in our internal laboratory, and next by an independent third-party test lab. The result is consistent performance above and beyond industry standards.

## Red Wing boots earn their badge.

Part of our internal product testing is to engage real workers to field-test new styles in the real-world work environments for which they are intended. This feedback often provides valuable additional insight into product comfort and performance prior to release.

## PYROMAN™ ENSURES FLAME-RESISTANT PERFORMANCE.

Most of the severe burn injuries on jobsites occur when clothing ignites and continues to burn. That is why all protective fabrics used in Red Wing workwear are tested for flame-resistant properties using PyroMan™ — a burn test that uses 122 heat sensors to analyze the potential for human tissue burn damage.

To help you make the right fabric choice for your needs, we offer detailed PyroMan test results for all Red Wing flame-resistant workwear.

RED WING VIDEO SERIES

# MEET THE PEOPLE WHO MAKE, TEST AND WEAR RED WING.

 [safety.rwsc.co/video-series](https://safety.rwsc.co/video-series)

## THE FACTORY

Meet the team that crafts boots with pride every day in Red Wing, Minnesota.

## THE LEATHER WILL TEACH YOU

Red Wing's skilled leather cutters explain the precision and craft behind their work.

## CRAFTING SOLE MOLDS

Red Wing sole molds are developed for new and existing boot styles, and created on-site at Red Wing's manufacturing facility.

## THE PURITAN STITCH MACHINE
