100 years of family business to establish credibility

The Hajee family began its marine safety business in 1885. Today, we look back proudly on our heritage of more than 100 years of family business operating in the marine and offshore industry. Our family values drive the way we do business and we've built our company on caring for the lives of our people. It's important to us that our people at sea are safe and feel protected at all times.

SHM was founded in 2001, by Chairman and industry veteran Mr. Saifuddin Hajee, with the mission to save lives through timely delivery of quality marine safety and survival systems. With its headquarters in Mumbai, SHM today has a network spanning over 18 port cities along the Indian coast, Singapore, Dubai, and Malaysia.

With an ambition to reach new markets, to continuously grow our business and raise our standards, and never settle for good enough, we're now opening a new chapter in our company's history. We look forward to the next decades of success with a new visual identity that reflects our international outlook and renewed promise of effective, responsible, and sustainable service to our clients and partners.

For more information please contact your nearest SHM office (see last page) or visit us at www.shmgroup.com

THE SHM

ADVANTAGE

- All-India, Singapore, Dubai, Malaysia, and Sri Lanka coverage
- Lifeboats, FFA, Liferaft, Electronics, Cargo Gear, and Ship Repair service capability
- Single point comprehensive service support
- Track record for timely and quality services
- Major flag administration & class approvals
- Over 300 trained engineers and technicians
- Certified workshops well-equipped with spares and inventory.
- Custom bonded warehouse for stocking Duty Free spares.
- Licensed to dispose Pyrotechnics as per PESO and DG Shipping Guidelines
- Preferred vendor with Fleet Service Agreements

OUR MISSION

Our mission is to become the leader in creating safe and secure working environments that enable businesses' freedom at sea and on shore.

We will achieve this by partnering with our customers to increase their productivity, fuel their sustainable growth by providing the most reliable safety products and engineering solutions, and having a positive impact on the world around us and on people's lives.

Lifeboats, Rescue Boats, and their Launching Appliances Services

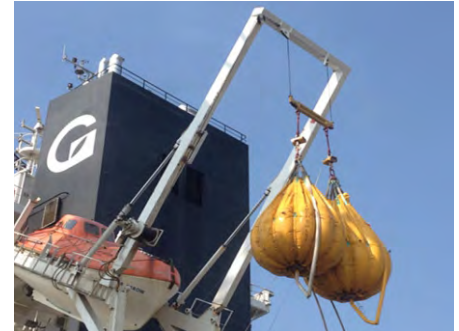

SHM Shipcare is the foremost Indian company providing maritime safety solutions. Relying on our experience of over 25 years, SHM strives to enable your freedom at sea. We shall achieve this by ensuring proper functioning of survival systems and improving safety standards on your vessels. Our Lifeboat, Rescue Boat & Davit Systems Services include:

Periodic Inspections

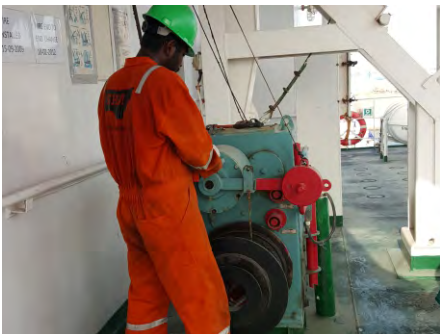

SHM's team of qualified and experienced personnel provide annual and 5 yearly inspection and maintenance services at short notice, 24/7, in accordance to IMO 1206/rev.1. Our service stations also possess necessary equipment to conduct load tests and on-voyage repairs. We are authorized by over 27 manufacturers and recognized by all major classification societies.

Hook Replacement

Genuine OEM Spares

Having conducted over 100 re-hooking jobs, we at SHM can take care of your complete re-hooking requirements no matter what brand of lifeboats you have in your fleet. Our experienced team shall guide you through the rules and regulations and ensure minimum impact on your operations.

WHAT DOES THE NEW IMO REGULATION SAY ?

According to the MSC. 1392/Circ.1, the new compliant hook systems must meet the new requirements concerning the locking arrangement and stability of the hook system. The new hook systems must be manufactured in corrosion resistant material.

The new LSA Code and MSC. 81(70) states the following test criteria:

- 30 kg release force
- 45° cam rotation
- Corrosion resistant material
- Durability test (50 on-load releases)
- No force on the release cables
- Cyclic loading test

New vs Old Hook

HOOK REPLACEMENT TIME SCHEDULE

MSC.1/Circ.1392 states that every lifeboat hook system must be compliant by the first scheduled dry-docking after 1 JULY 2014 - and no later than 1 July 2019.

2013	2014	2015	2016	2017	2018	2019
<p>Until July 2013</p> <p>A period for self-assessment and review of hook designs.</p>	<p>July 2013 – June 2014</p> <p>A period for ship-owners to plan and start their re-hookings.</p>	<p>July 2014 – 2019</p> <p>The implementation period. MSC.1/Circ.1392 states that all hook retrofits must be carried out in the first scheduled dry docking after 1 July 2014, and not later than 1 July 2019, to be compliant with the new regulations.</p>

LIFEBOATS, RESCUE BOATS, AND THEIR LAUNCHING APPLIANCES SERVICES

safe seas, safe shores

Inflatable Liferaft Servicing

SOLAS Regulation III/20.8 requires every inflatable liferaft to be serviced at an interval not exceeding 12 months. In case this annual service is impracticable, the Administration may extend this period to 17 months. SOLAS also mandates that liferafts should be serviced at approved service stations which maintain proper infrastructure and use properly trained personnel.

Our network of service stations make it possible for us to cover all your servicing needs (including Lifeboats, FFA, Cargo Gear, Electronics) from a single point contact at your local SHM branch office. Our service stations stock OEM spare parts so that you can receive prompt and quality services at any station most convenient for you.

Our stations are approved by over 12 manufacturers and all major classification societies. We are located across 14 ports in India, and in Dubai, Singapore, and Malaysia and Shrilanka.

Why choose SHM for your servicing needs?

- Lifeboats, FFA, Cargo Gear & Electronics all-in-one service capability
- All-India, Dubai, Singapore, Malaysia, and Sri Lanka coverage
- Over 12 OEM Authorizations
- Approved by major flag administrations and classes
- Team of over 300 trained engineers and technicians

Fire-Fighting Appliances (FFA) Services

As per guidelines provided by the IMO and Flag State Administrations, fire protection systems and appliances should be serviced, examined, and tested periodically by an authorized facility acceptable by the ship's Classification Society. It is imperative to ensure fire safety equipment are available for immediate use while the ship or offshore installation is in service.

At SHM, we are well equipped with advanced infrastructure and trained personnel to service and test the following fire safety equipment:

- Portable & Non-Portable Extinguishers, Foam Applicators
- Breathing Apparatus
- Medical Oxygen Resuscitators
- Foam Concentrate Analysis
- Fixed CO2, Foam, DCP, Water Mist, Sprinkler, Wet Chemical Galley Systems
- Compressor Air Quality Test
- Fresh/Drinking Water Analysis

Disposal of Time Expired Pyrotechnics

DG Shipping LSA Circular 1 of 2015 highlights

Pyrotechnics need to be landed ashore as soon as they expire and disposed off in an environment friendly manner to prevent their misuse and recycling. In view of this, the Nautical Wing of DG Shipping, Govt. of India, issued LSA Circular 1 of 2015 which states,

“...time expired Pyrotechnics which were intended for use on board ships and survival crafts are being misused, fraudulently by way of tampering with the dates of expiry... it was reported that such malpractices are being practiced by the life raft stations and suppliers of pyrotechnics... Considering the fact that the pyrotechnics are essential life saving appliance on board ships, in case of distress at sea, any malpractice will jeopardize the safety of lives at sea.

...The shipping companies, suppliers and life rafts stations are hereby reminded of their responsibility to ensure use of genuine pyrotechnics... such agencies are directed to ensure disposal... through suitable facilities which are either controlled by the Government Organization or approved by the Petroleum and Explosives Safety Organization (PESO)... defaulters may be prosecuted which may amount to a penalty as imprisonment which can extend up to six months.”

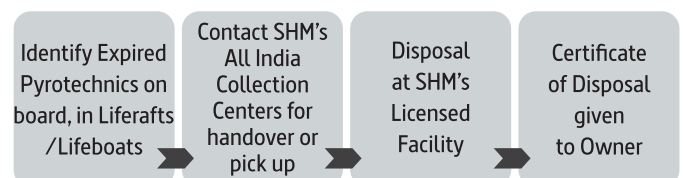

SHM's PESO approved disposal facility in Vishakhapatnam

In compliance to above DGS circular and in line with SHM's core value of sustainability, we have established a facility (our group company M/s. Balaji Marine and Civil Engineering Works, Visakhapatnam) for disposal of expired pyrotechnics duly approved and controlled by PESO. We undertake disposal of time expired pyrotechnics as per our principal manufacturer's guidelines and under the supervision of PESO.

SHM's Vision of creating "safe seas, safe shores"

At SHM our vision is "safe seas, safe shores" and we strive to become the leaders in creating safer and secure working environments that enable businesses' freedom at sea and on shore. We will achieve this by partnering with our customers to increase their productivity, fuel their sustainable growth by providing the most reliable safety products and engineering solutions, and having a positive impact on the world around us and on people's lives.

Procedure for disposal

*Contact numbers of SHM's Collection Centres are listed on the back page

Disposal of Hand Flare at Vishakhapatnam facility

WARNING :

- Never fire Pyrotechnics on land, in harbor, or at sea for either testing purposes, practice, or as fireworks

- Never dump Pyrotechnics at sea

- Never keep Pyrotechnics after the date of the expiry

- Never place expired pyrotechnics in the general waste, where they can be accessed by general public

Enabling your freedom at sea

“Enabling freedom at sea” stands for SHM’s commitment of offering our clients peace of mind – at sea and on shore. It talks about the peace of mind you have when you know that someone you trust is taking care of you. It talks about what safety enables you to do:

- Freedom to operate
- Freedom to trade
- Freedom to travel
- Freedom to explore
- Freedom to innovate
- Freedom to excel
