SOLAS MARINE SERVICES GROUP

CALIBRATION SERVICES

SOLAS Marine Services Group is delighted to announce its new calibration laboratory "SOLAS CALIBRATION SERVICES" in Dubai Investment Park near Jebel Ali. Our laboratory is accredited by Dubai Accreditation Department for ISO 17025:2005. Accreditation to this standard is a formal recognition that our laboratory is competent to carry out tests detailed in our scope.

This accreditation recognized as industry's top standard, assures the quality of SOLAS Calibration services process, technicians and data accuracy. Our team of trained technicians use certified test equipment to perform our accredited calibration.

Our calibration extends from laboratory calibration, to an onsite calibration and offshore installations. We understand the customer requirements, exigency and our team of qualified engineers can provide appropriate cost effective solutions.

Maintaining Data Accuracy, Integrity and Traceability

Our calibration laboratories are ISO/IEC 17025 accredited laboratories that have demonstrated competence, impartiality, and the performance capability required to provide a high level of confidence in the results. Calibrations are conducted using high end master equipments that perform data acquisition, uncertainty analysis, and checks against ISO and ASTM requirements.

Our calibration reminder program will help you to track the due dates. Automatic reminders are sent in 03 months advance which provides the end-user ample time to plan the calibration activity.

Calibration, Certification, Repair, Maintenance Services offered for Electrical, Process Control, Test & Measuring Instruments like:

- Pressure Gauge
- Pressure Transmitter
- Vacuum Gauge
- Differential pressure gauge
- Differential pressure transmitter
- Pressure switches
- Differential pressure switches
- Pressure Calibrators (Hand Pumps)
- Pressure relief valve
- Safety valves
- Barometers
- Flow Transmitter
- Level Transmitter
- Level Switches
- Control Valve
- Temperature transmitter
- Temperature gauge
- Temperature Elements
- Thermocouples of the K,J,N,E,R,T,B,S,L and U types
- Temperature transducers
- Hand-held thermometers
- Thermometers
- Temperature dry well calibrators
- UTI Tape
- Weather stations
- Hand held anemometers
- Torque Wrench Calibration
- Proximity Probe Calibration
- Thermo-Hygrometer Calibration
- Weighing scales

Compliance to Global Standards

Our services are designed to ensure that your equipments meet or exceed relevant standards.

Our calibration specialists are trained and supported by the necessary calibration tools and standards to verify and calibrate the equipments with relevant parameters considering uncertainties.
