

Service Division

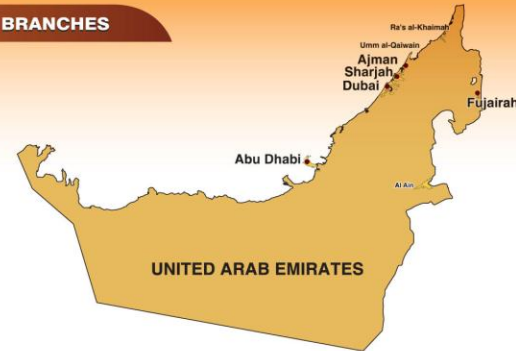

We provide following services for breathing air compressors - Marine and Seismic Compressors.

- Compressor block
- Engine or Motor
- Cylinder & Valves
- Filters
- Full Compressor instrumentation
- On / Off switch for electric prime mover
- High temperature switch with indicating light
- Low oil pressure switch with indicating light
- Hourmeter
- Audible alarms and pressure sensors
- P-5 purification
- SECURUS electronic moisture monitor
- Four air storage gauges
- Auto sequential cascade
- Storage refill port
- Carbon Monoxide monitor
- Engine prime mover controls and fault light
- Engine speed and idle control
- Storage bank / cylinder overhauling
- Regulators
- Overhauling
- Calibration & Certification

Offshore support, diving vessel
Container, Tankers and LNG
Drilling rigs and platforms
Wire logging and seismic compressors

Service Division

Fire Fighting Equipment Servicing

We undertake repair and maintenance of all kinds of Fire extinguishers, FM 200 systems, NOVEC Systems, Fixed fire extinguishing systems etc. Our fire-fighting workshops are approved by the UAE ministry of communication and most of the major classification societies, i.e. Lloyds, DNV, ABS, GL and BV, NKK etc.,

Breathing Air Cascade & SCBA Equipment

We service all kinds of Breathing Apparatus, escape sets & medical oxygen resuscitators. SCBA and EEBD service stations are approved by ABS, DNV, Lloyds, BV, GL, IRS, NKK, Register of Russian Maritime, Hellenic Register, etc. Our hygienic and sterile Service Stations are groomed in clean environment. We house state of the art equipments to service breathing apparatus.

Service Division

Calibration

We are also specialized in Calibration and Re-testing of Gas Monitors such as: BW, RAE System, Crowcon, Dräger, Honeywell Analytics, MSA, Fire and Gas detection systems.

Calibration of Pressure Gauges, Pressure & Temperature Calibrators, UTI tapes, Wind Speed Indicators, Anemometers, thermometers, Barometers can be done at site / workshop. Pressure gauges ranging from 0 - 2500 bar can be tested at an accuracy of 0.006%. Temperature instruments ranging from -35° C to 165° C and pressure transmitters upto 300 bar can be tested.
